This is a school with a long tradition of academic and creative excellence, where we seek to inspire, empower and challenge each girl to be herself. The girls are well grounded, confident and independent, keen to make a positive difference in the world. They are proud of their school, and they value kindness and laughter, fun and friendship.

With a rich and varied co-curricular programme, and a strong emphasis on charitable activities, the girls enjoy being part of a warm, supportive and vibrant community, where they can express their passion for learning, and for life.

Our parents say this, our girls and staff say this too. Come and visit us and you'll see why.

Junior School (Reception to Year 6)

The School Day

The school day begins at 8.30am when girls join their class teacher for registration. This is followed by a whole school assembly and lessons begin at 9.00am. Junior girls eat their lunch in the dining room (at an earlier and separate time to the senior girls). They enjoy freshly cooked food made on site by our own catering staff. Menus are varied and there is always a vegetarian option and plenty of salads and fruit.

School ends at 3.15pm for Reception and Year 1 and 3.20pm for Years 2-6. An after-school club, run by school staff, operates each evening until 6pm. It can be used on a regular or an occasional basis.

At lunch time and after school girls might be involved in working on an end of term production, a choir or orchestra rehearsal or practice for a sports match. They can also take part in a range of clubs and societies. Exactly what is on offer varies from term to term and from year group to year group, but typically includes: chess, art, craft clubs, running, swimming, gardening, netball, dance, yoga, and science. You will receive regular updates on what is available for your daughter.

Girls are set regular homework. This begins with reading in Reception and by Year 6 girls will have some work to do each evening. However, we know girls' days are busy and we believe they need time to relax or take part in other activities after school, so the amount set is always reasonable.

Teaching and Learning

Reception

Each Reception class is taught by a teacher specialising in this age group who has the help of a teaching assistant. The two Reception classrooms are generously equipped with educational games and toys and have an outside play area.

For the first two weeks of the school year our new Reception girls attend school for just a few hours each day, gradually building up to a full school day. This allows them to become familiar with their new school and new routines.

Curriculum

The timetable for all year groups incorporates the national curriculum as a minimum and its levels of attainment are achieved and exceeded at every stage. The timetable includes art, music, drama, dance and PE with specialist teachers for science, PE, class music, languages and ICT. Girls learn Mandarin from Year 1 onwards. There are extra-curricular clubs for those who would like to learn French and German.

We have developed an integrated approach to our curriculum which, as well as giving full attention to numeracy, literacy and individual subjects, focuses learning for each term around a theme. This allows girls to develop real depth of knowledge and additional skills such as undertaking independent research, analysing results, interpreting information and preparing

presentations. They go on many trips to places that relate to the subjects they are studying and visiting speakers come into school.

Whatever subject is being taught, and whatever a girl's age, we encourage creativity, an enquiring attitude, and independent thinking.

Pastoral Care

The Junior School is a friendly, close-knit community; girls know they can talk to all adults within the school, and they do. Throughout the school they are taught primarily by their class teacher who is also responsible for their pastoral care. Class teachers develop a warm relationship with the girls and their parents. Our 'open door' policy means that you can easily come and talk to us about any concerns you have.

Moving On

We expect that girls joining the Junior School will move on through to the Senior School, and in the spring term of Year 5, the overwhelming majority of girls receive an unconditional, confirmed offer of a place in Year 7 of the Senior School. Our own Junior school girls do not sit the 11+ entrance exam.

Very occasionally, after discussion with the head of the Junior School, the Head may advise parents that a move to the Senior School may not be the right course of action. Discussion will have already taken place between the parents and the head of juniors and their daughter's class teacher. In all cases, our concern is to reach the best decision and choice of senior school for each girl.

“

You are providing our daughter with a fantastic education – she is blossoming in your care. Thank you!

Parent

Senior School (Year 7 to Year 13)

Joining us in Year 7

About half of the girls joining us in Year 7 come from maintained and independent schools across west London and a roughly equal number come up from our Junior School.

We have a range of special activities and programmes in the first few weeks to make sure everyone settles in quickly and all girls in Year 7 have an older girl from Year 12 or Year 13 as a mentor or 'big sister' who can give practical help and support.

Throughout Year 7 we work closely with the girls to help them organise themselves and navigate the challenges of the busy school day, new friends and the exciting extra-curricular activities on offer.

Pastoral Care

Pastoral care is at the heart of everything we do at NHEHS. Key figures in your daughter's pastoral care are her Form Tutor and Head of Year. The Head of Lower School has special responsibility for the pastoral well-being of girls in Years 7 and 8 and in ensuring they make a smooth transition to Senior School. The whole system is overseen by the Deputy Head – Pastoral. The Head also takes a personal interest in the care and welfare of all pupils and teaches all girls in Year 7 in their first term

When your daughter joins the Senior School she will become a member of one of three houses. This will give her the opportunity to meet girls in other

forms and year groups. The Houses are run by girls in Year 12 and friendly, light-hearted competitions between Houses, including the exuberant House Shout, and competitions in music, public speaking, debating and sports bring everyone together.

The Curriculum

Years 7–9

We cover the core requirements of the National Curriculum, but learning in all subjects goes well beyond this. As well as mathematics, English, history, geography, languages and sciences your daughter will have timetabled lessons in art, drama, music, religious studies, PE and sport, computer science and design technology. Each year group also has a specially designed Personal, Social, Health, Citizenship and Economic Education Programme (PSHCEE).

Currently in Year 7, all girls study Mandarin for a year. European languages are taught in a carousel system, so girls study French, German and Spanish language and culture for half a term at a time, with this then repeating, to give them a term of each language in total. In Mandarin there are ab initio classes for those who are new to the language and there is a group for those who have studied Mandarin before. In Year 8, girls choose any two of the four languages they have studied in Year 7 and continue with these two languages through Year 9. Latin is introduced in Year 8.

Years 10 and 11 (GCSE Years)

All girls take English and English literature, mathematics and all three sciences leading to either the Triple award or the Dual award. In addition, they choose four other subjects from a wide range and including at least one modern foreign language and a humanities subject. The choice on offer includes Latin, Classical Greek, modern languages; (French, Spanish, Mandarin and German), drama, art, music, religious studies, geography, history, computer science, and design technology.

Girls are prepared for either GCSE or iGCSE, depending on the subject, and we choose examination boards which provide the most interesting and stimulating syllabi.

Sport, PE, RS, Ethics and PSHCEE are part of the non-examined timetable and girls are encouraged to continue to follow extra-curricular interests and take an active part in school societies, sports teams and clubs. Year 11 girls attend, with the sixth form, a weekly lecture programme which features inspirational sports men and women, speakers on medical ethics, writers, politicians, charity leaders and figures from the worlds of business and the arts. This list of speakers also regularly features a number of NHEHS alumnae which adds an extra dimension and level of interest.

Sixth Form (Years 12 and 13)

A Levels

Girls usually take 3 A Levels (a fourth may be taken in exceptional circumstances). Currently the subjects on offer are: Art, Biology, Computer Science, Chemistry, Design and Technology, Drama and Theatre Studies, Economics, English Language, English Literature, French, Geography, German, Greek (Classical), History, History of Art, Latin, Mandarin, Mathematics, Further Mathematics, Music, Physics, Politics, Psychology, Philosophy of Religion and Ethics, and Spanish.

Girls also have the opportunity to extend and broaden their A Level studies by completing the AQA Extended Project Qualification in Year 12. Our sixth form programme of electives, lectures and seminars provide breadth and depth beyond the examined curriculum and a rich variety of trips, visits and workshops are on offer in all subjects. PE and sport remain part of everyone's timetable.

Sixth Form Life

Sixth Formers are based in our Sixth Form Centre where facilities include seminar rooms, a careers library, spacious common room with an outdoor area for relaxing, a café and a multi-gym. The Head of Sixth Form, her Deputy and the team of sixth form tutors are on hand to ensure that girls get the most from the sixth form experience which mixes freedom with responsibility and is an ideal stepping stone to the independence of university life.

University Applications

The Head of Sixth Form, the Director of University Applications, and the Head of Careers supported by a team of experienced tutors, ensure that every girl receives the best possible information on the subjects and institutions in which she is interested. Practice interviews are arranged so that girls know what to expect and Old Girls come back to school to talk about university life and their experience of particular courses.

There is a specific UCAS preparation programme for all girls, with guided preparation, support and extension classes for those interested in Oxbridge entry or entry to any highly competitive courses such as medicine. In addition, all Sixth Formers have access to programmes and conferences organised by the GDST which are designed to complement the support provided by the school. These include preparation courses for university entrance tests, a range of masterclasses and taster days and an annual Oxbridge Conference.

Full details on the Sixth Form at NHEHS can be found on our website or in our Sixth Form Prospectus which is available online or from the Admissions department by emailing: admissions@nhehs.gdst.net

A Richer Education

Extra-Curricular

All year groups benefit from numerous additional activities to support and enrich the curriculum. We make the most of London's museums, galleries, theatres and historic sites and run an extensive programme involving trips abroad and in this country.

There is a huge number of clubs, run by staff or Sixth Formers, for different age groups. Your daughter will be given a timetable of what is available each term for her age group and updated lists are published each term on Firefly, our student and parent portal.

Many activities revolve around music, drama, art and sport. Anyone may audition for school productions or apply to work behind the scenes. There are choirs for all ages, two orchestras and numerous instrumental groups which rehearse at lunchtime or after school. Throughout the year there are concerts both in school and at other venues.

Debating and public speaking are popular and we run clubs and enter teams for various debating competitions and Model United Nations events. The school has a flourishing Young Enterprise programme with competitions for girls in Year 9 as well as for Sixth Formers.

Our own staff run a range of recreational and competitive sports clubs for different ages at lunch time or after school. These vary according to the time of year but might include hockey, netball, tennis, rounders, athletics, football, cricket, cross country, gymnastics and swimming. Our superb new sports facilities have opened up additional opportunities in trampolining, dance, badminton, basketball, yoga, tag rugby, self-defence and zumba with some of these clubs being taught by visiting experts. There are trials for those wishing to represent their school and we field a large number of teams in hockey, netball, rounders, tennis, cross country, water-polo and swimming. Older girls have the chance to prepare for a sports leadership award or to train as a pool life guard, qualifications which mean they are able to help run sports clubs for the younger girls.

Leadership

As the girls move up the school, they are encouraged shape and lead their school and will be offered many opportunities to developing responsibility, teamwork and leadership skills. Girls can get involved with the school magazine, run a club – or start one – help to produce school productions and in in the Sixth Form, girls can apply to be Subject Representatives, the Games Captain, or even as Head Girl.

Helping Others

Each form chooses a charity and devises imaginative ways of raising money for it, often securing the good tempered involvement of staff in lunchtime events and shows. You can read more about their efforts and the causes they support on our on our website or by following us on Twitter where there are regular updates on charity events.

Careers Advice

Specialist careers advice is available to all pupils at any stage. A programme of annual events and support begins with the spectacular Careers Convention organised by the NHEHS Parents' Guild's Careers Committee. This is open to girls from Year 9 upwards and typically includes representatives from over 70 occupations and professions.

There is a comprehensive, up-to-date careers library run by the Head of Careers. A full assessment with psychometric tests is available before A Level subjects are chosen. This is arranged through Inspiring Futures formerly known as the Independent Schools' Careers Organisation (ISCO). Everyone is encouraged to undertake some work experience and we ask students to give us feedback about their placements. Sixth Formers applying for internships are offered advice and support. They also have access to the unique schemes run by the GDST in conjunction with Nomura, HSBC, Barclays and Rolls Royce which offer opportunities to learn about the corporate world, develop people skills and build links for potential graduate opportunities. NHEHS has a dedicated Director of University applications who will guide your daughter through the UCAS process. The GDST also offer a range of conferences which cover for example university applications for particular subjects such as medicine, architecture or engineering or offer the opportunity to meet and network with alumnae studying or working in particular fields.

Alumnae Networks

At the end of Year 13 our Sixth Formers automatically become members of the NHEHS Old Girls' Association. The OGA offers networking opportunities, social events and many informal ways for girls to keep in touch with each other and the school.

All current and former sixth form students automatically belong to the unique GDST-wide alumnae network. This offers unparalleled opportunities for advice and mentoring from women who were themselves students at GDST schools and who share the ethos of the Trust schools.

Through these networks introductions can be made to former NHEHS or Trust students who are already at a particular university, or who are firmly established in a career. Help may also be given organising work placements.

Networking events are held in school throughout the year, offering a wide range of networking opportunities and career advice across a wide range of industries.

The Parents' Guild

All parents automatically become members of the Parents' Guild which makes a huge contribution to the school community.

It is active in both the Junior School and the Senior School and parents of new girls are encouraged to get involved or to attend some of the social activities it runs. As well as running a wide range of events, giving parents the chance to meet informally and make friends, the Parents' Guild raises large sums of money for special school projects and for the Bursary Fund.

This is a happy and hard-working school where our daughters are encouraged to make the most of the fantastic opportunities available to them.

Parent

Results and Destinations

Results

Our girls achieve outstanding success in public examinations. Data for recent years for both A Levels and GCSE is given below and results by subject can be found on our website.

Year	A Level % A*/A/B grades	A Level % A+ grades	GCSE % A*/A grades
2020	90%*	34%*	93%*
2019	84%	23%	89%
2018	94%	26%	91%
2017	86%	20%	89%
2016	90%	33%	91%

A-A equivalent – 9-7 grades

*2020 grades were Centre Assessed Grades

Destinations of this years' leavers can be found on our website.

Our daughter is just about to leave Year 13 and is heading for university with an open mind, broad interests and her passion for learning intact.

Parent

Destinations of Leavers

Our Sixth Formers apply successfully to university either in Year 13 or in the year immediately following their A Level examinations.

The success of our university preparation programme is shown by the extremely wide range of courses and universities our girls go on to. These include Oxbridge and the highly selective Russell Group universities (typically over 85% of candidates in any year). In most years there will also be some girls who go on to an Art Foundation Course, usually at one of the London colleges, before going on to apply for a degree course.

The over whelming majority secure places at their first choice institution. In 2020 our girls went on to study subjects as varied as Biomedical Sciences at Bath, Modern and Medieval Languages at Cambridge, Mathematics at Durham, Architecture at Brighton, Physics at Oxford, Psychology at Kings College London, Spanish and History at Edinburgh, Veterinary Science at Bristol to English at UCL.

A full list for the 2020 Leavers can be found on the Destinations pages of our website.

Admissions

You are very welcome to contact the Admissions department at any time and more information on the admissions process is given on our website.

Open Days

For Entry in September 2021

We would normally be holding a number of open days in the Autumn, however as a result of the current situation we are continuing to review the government guidance to see what is possible. We are scheduling a number of virtual open days, for up to date information please take a look at the admissions section of our website.

Junior School

4+ (Reception)

Applications for registration are accepted from birth but the deadline for registration is the first week of November in the year preceding the September in which a girl would join Reception. There are 40 places in two classes and entry is selective. The offer of a place is based on an assessment which, for the Reception classes, takes the form of an informal 'play' assessment in small groups of up to four children. At this stage we do not expect girls to have had any formal previous education or knowledge. Assessments take place in late November and early December and we aim to offer places before Christmas.

Years 3 / 4 / 5

There are a few additional places available for Year 3 entry, and sometimes for Year 4 and Year 5. Girls sit a formal entrance test in English, Maths and reasoning. An entrance test will be held on **Friday 15 January 2021** to test for any vacancies in these year groups, for entry in September 2020. The deadline for registration is 16 December 2020.

Occasional places

We do also sometimes have places available at other times of year and in the lower year groups. Admission will be by tests or interview suitable for the year group applied for. Please contact the Admissions department for more information on availability of places.

Siblings

Most siblings join us at Notting Hill but acceptance is not automatic and is always based on assessment.

Senior School

11+ (Year 7)

The deadline for registrations is 18 November 2020, for entry to Year 7 in September 2021.

For entrance testing purposes Notting Hill & Ealing High School is part of the London 11+ Consortium. The entrance examination comprises a bespoke cognitive ability test of 75 minutes, incorporating verbal, non-verbal and mathematics questions. **The examination for 2021 entry will take place on Friday 8 January 2021.** All girls applying to NHEHS will also be interviewed.

Interviews are usually held in January. Offers of places will be sent out to families on Thursday 11 February 2021 and the deadline for acceptances is Wednesday 3 March 2021 at 12 noon.

More information on the London 11+ Consortium and further details regarding the entrance test, including sample questions, can be found in the Admissions section of our website.

Occasional places

Occasional places may arise in other years and admission will be by tests and interview suitable for the year group being applied for. Please contact the Admissions department for more information on availability of places before sending your application.

16+ (Year 12)

Entrance is selective and based on subject-specific written papers, interviews in the chosen A Level subjects, and a reference with details of predicted GCSE grades from the student's current school.

The written tests for entry in September 2021 will take place in the week beginning 16 November 2020, with selected candidates invited back for interview the following week. There is some flexibility for testing and interviewing at other times of the year. Offers of places are conditional upon GCSE grades.

Please see the Sixth Form Prospectus or our website for more information.

Fees and Bursaries

Fees per term for 2020/21

Junior School	£4,938
Senior School	£6,404

The fees include the regular curriculum, school books, stationery and other materials. In the Senior School they cover public examination fees, the costs of careers planning and testing provided by Inspiring Futures in Year 10 and lifetime membership of the NHEHS Old Girls' Association and the GDST Alumnae Network. The GDST reviews fees each year and any changes for the academic year 2021/22 will be published in April 2021.

Lunches

Fees do not include the cost of school lunches. Girls from Reception to Year 9 (inclusive) must have school lunches. The cost is added to the fees invoice.

Cost of lunch per term for 2020/21

Reception to Year 3	£225 per term
Year 4 to Year 6	£240 per term
Year 7 to Year 9	£240 per term

Every parent would say they want their daughter to develop into a happy and confident young woman. At Notting Hill & Ealing they make it happen.

Good Schools Guide

Scholarships

Scholarships

Academic, Music and Sport Scholarships are available to girls applying for entry at 11+.

Academic Scholarships

All candidates applying for entry at 11+ are automatically considered for an Academic Scholarship. These are awarded to candidates showing outstanding academic potential, and selection is via performance in the entrance examination and interview. Our own Junior girls are also considered for Academic Scholarships when they join Year 7, and awards are based on academic performance and potential.

Music Scholarships

Candidates applying for Music Scholarships at 11+ will normally be performing at a minimum of Grade 4 or 5 standard on their main instrument (which can include voice). The Director of Music then selects the candidates she wishes to see for audition. Auditions are normally held in late January and candidates are asked to perform two contrasting pieces on their main instrument (or one piece on each of two instruments). The audition also includes some sight-reading and aural tests.

The deadline for Music Scholarship applications to reach us is 18 November 2020. Parents are also requested to obtain and submit a reference from their daughter's Director of Music or instrumental teacher by this date.

Sport Scholarships

Candidates applying for Sport Scholarships at 11+ can apply for the following sports:

Athletics	Cross Country
Cricket	Hockey
Netball	Swimming
Tennis	Water Polo

Candidates can also apply for an All-Rounder Sport Scholarship if they are offering two or more sports from those listed above.

Candidates are expected to be playing at a minimum of club level in their respective sport, and preference is given to those who have shown the potential to make the County or equivalent system in the future. The Director of Sport selects the candidates she wishes to see for assessment, which will normally take place in January. The assessment is comprised of general fitness tests and each candidate will also be required to demonstrate their chosen scholarship sport or sports.

The deadline for Sport Scholarship applications to reach us is 18 November 2020. Parents are also requested to obtain and submit a reference from their daughter's coach or sports teacher by this date.

All scholarship awards are usually worth 10 - 15% of the fees, although higher awards may be available for exceptional candidates.

At 16+, there are several Academic Scholarships available, as well as scholarships for Art, Drama, Music and Sport. Candidates can also be considered for an All-Rounder Scholarship, awarded for all-round achievement and potential.

More details are available in the Sixth Form Prospectus.

Bursaries

Means-tested bursaries are available in the Senior School, for entry to Year 7 and the Sixth Form, and can cover up to 100% of the fees. Families who think they may be eligible should indicate this on the application form and they will be sent details of how to log on to the on-line GDST bursary application system. Decisions on eligibility are made centrally by the GDST and the sum offered for any particular bursary is awarded on a sliding scale, depending on the family's means.

Places are always offered on the basis of ability, regardless of bursary application, so that parents can choose to accept a place whether or not a bursary is offered. There may be insufficient funds to cover all eligible families. In this case, bursaries will be awarded in order of academic potential as judged by the entrance procedure. Money available for bursaries is limited, so it is important that parents indicate their interest at the time of application and complete the on-line application procedure in good time.

The deadline for bursary applications to be submitted for 2021 entry is 18 November 2020.

Trips

Fees do not include the cost of trips. In the Junior School and the Senior School an additional amount per pupil will appear on the annual invoice. For 2020-2021 this is £90.00. This covers all trips, except residential ones and some evening theatre visits. You will be notified about these separately.

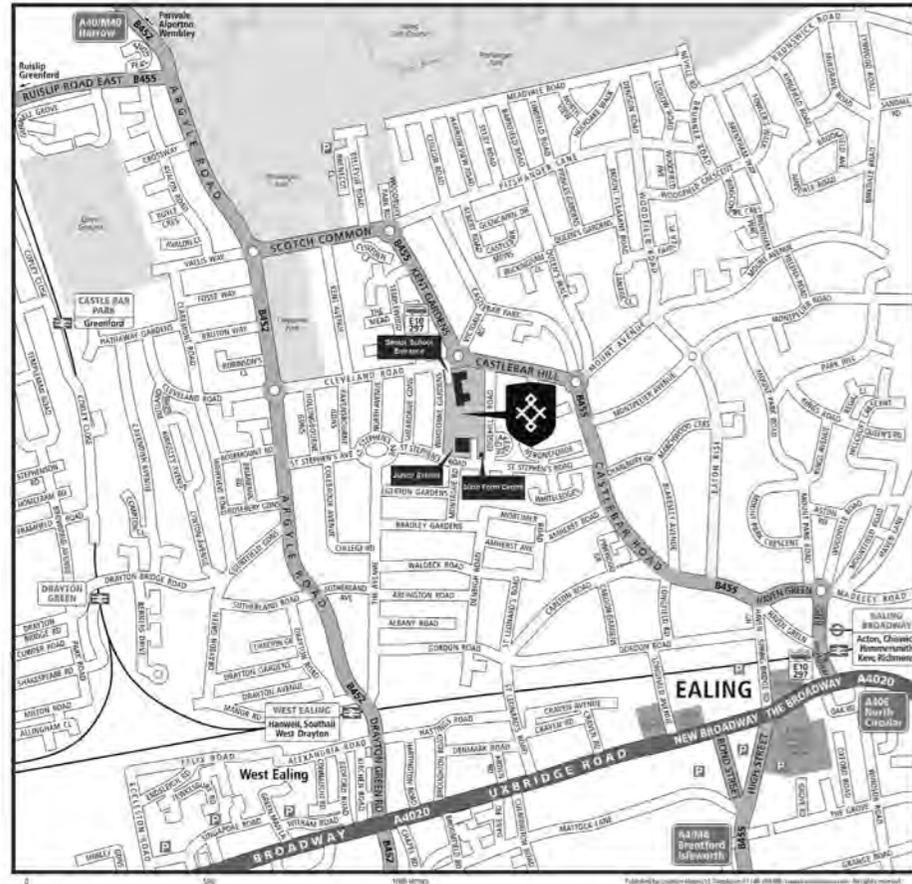

Other Costs

The fees do not cover:

- Regular or occasional use of the Breakfast Club or After School Club.
- Fees for private music or drama tuition or support lessons. In the case of additional private tuition (e.g. music, drama or support lessons) parents make a contractual arrangement with the teacher concerned.
- Some extra-curricular clubs or sports activities run by visiting experts.

Copies of the school's payment terms and conditions are available on request. More information on fees and payment schedules is available from the Admissions department.

How to find us

Junior School

26 St Stephen's Road
Ealing
London
W13 8HH

Senior School

2 Cleveland Road
Ealing
London
W13 8AX

Telephone: (020) 8799 8400
enquiries@nhehs.gdst.net

Admissions: (020) 8991 2165
admissions@nhehs.gdst.net

Ealing is served by excellent transport links and the school is a 12-15 minute walk from Ealing Broadway. Alternatively, the 297 and E10 buses leave Ealing Broadway every 5 minutes and stop next to the school. The Central Line and the District Line (and from 2020/21 Crossrail) plus many bus routes serve Ealing Broadway, putting us within easy reach of all parts of Ealing, Acton, Chiswick, Hammersmith, Shepherds Bush, Holland Park, Kew and other parts of West London. We are also within walking distance of West Ealing and Castlebar Park mainline stations.

The school runs a coach service to and from some areas, with new routes continually under review. Current routes serve Central London, Hammersmith, Shepherds Bush, Chiswick, Kew, Richmond, Harrow, Wembley, Acton and Ealing. If you would like more information, please refer to the Coach Travel Guide included with the prospectus.

We encourage girls to cycle to school and bike racks are available.

Development and Facilities

At NHEHS we continue to look at ways to improve our facilities. Over the last 10 years there has been significant investment and this culminated in the final stage of an exciting £15 million project, that has created a vibrant dynamic space offering flexible facilities which have open up opportunities in Sport, drama, music and public speaking:

- A multi-function hall for assemblies, whole-school gatherings, plays and events;
- A four-court sports hall built to Sport England standards;
- A 25 metre indoor swimming pool;
- A spectacular dance studio;
- A 100-seat theatre complete with state-of-the-art lighting and sound.
- A music recital hall;
- A recording studio and music practise rooms;
- A dedicated sixth form centre;
- A bright and airy dining room
- Refurbished science classrooms

As part of the development we have also added an all-weather sports surface which can be used by both Junior and Senior School girls. The main entrance to the school and the library have also been redesigned to provide welcoming, comfortable places to socialise or study.

These buildings are stylish and full of light and link beautifully with our existing buildings transforming the school. They have given us a series of practical, flexible and well-designed spaces that are benefitting each of the girls who spend so many hours here.

Finally, the garden, the green heart of NHEHS, has been re-established at the centre of the school, offering a place to sit with friends, eat lunch on a sunny day or simply to relax.

This information is believed to be correct at the time of publishing, but it may change and is not part of any contract between parents and the GDST. It should be read in conjunction with the other information sent out to parents with the prospectus brochure.

Girls' Day School Trust

Notting Hill and Ealing High School is part of the GDST (Girls' Day School Trust). The GDST is the leading network of independent girls' schools in the UK, with nearly 4,000 staff, and 20,000 students between the ages of three and 18. As a charity that owns and runs a network of 24 schools and two academies in England and Wales, it reinvests all its income in its schools. Founded in 1872, the GDST has a long history of pioneering innovation in the education of girls, and is the largest single educator of girls in the UK and the UK's largest educational charity.
