## NOTTING HILL & EALING HIGH SCHOOL

### Information for university and college admissions teams

Pupils at NHEHS had continuous teaching via remote learning and teacher assessed work throughout the summer term. Lessons were slightly shorter to facilitate breaks for girls' wellbeing.

Guidance for UCAS applications was delivered remotely both via whole-year training and by one-to-one sessions with tutors. The usual programme was marginally disrupted but was successfully delivered and well established.

Predicted grades have been determined in part by Internal Assessments sat at the end of year 12, which went ahead in adapted formats. All assessments were invigilated over Google Meets and the school has confidence that the data gathered had integrity. Further supporting evidence from the start of year 13 was later been used to support predictions where necessary.

For any further information, please contact the Deputy Head (Academic), Ms M Copin, or the Director of University Admissions, Mrs M Collins, via [enquiries@nhehs.gdst.net](mailto:enquiries@nhehs.gdst.net).
